

FSG 251

HYBRID GRAIN SORGHUM

(*Sorghum bicolor*)

- Exceptional yield performance for maturity
- Wide area of adaptability
- Overall good agronomic package

FSG 251 is widely adaptable north to south across various soil types and conditions of the medium-early maturity zones. Exceptional stress tolerance allows for dependable yield performance under adverse conditions. Good emergence score and early vigor help FSG 251 get a fast start in spring.
