

PROFESSIONAL DAIRY PASTURE MIXTURE

- Superior yield
- Excellent palatability
- High protein for maximum milk production
- Non-toxic endophyte fescue provides maximum performance and eliminates concerns about animal health
- Strong persistence and re-growth that withstands grazing pressure
- Excellent drought tolerance and winterhardiness
- Resists many common diseases

Formulated to maximize performance of dairy cattle, Professional Dairy Pasture Mixture is a specially selected blend of unique, high-quality grasses, clovers and alfalfas that provides a balance of exceptional yield, nutrition, stand persistence and disease resistance. This mixture was created to meet the needs of producers who want to optimize animal performance and maximize per-acre return.
